

Director Report: May 2024

Mark, five welding students, and the RHS CTE Coordinator visited and toured Genisis Alkali last week. It was a fantastic experience.

In April, Gerald, several CTE students, and the RHS CTE Coordinator attended the Oftedal Construction Heavy Equipment Day in Casper. After a safety training, they were allowed to climb on heavy machinery, operate it and learn all about it.

This week, Mark and 5 welding students traveled near Baggs to install 40 fences that students made for the BLM Highwater Reservoir project.

Last week the auto department participated in the Jeep Topless day at the Carbon County Fairgrounds. They haven't shared the amount yet, but proceeds from the event go to the auto and woods department. The auto department also won the "People's Choice" award for the Barbie Jeep they revamped.

Certifications for high school students: Total earned this year at CCHEC: 68
27 students completed their OSHA-10 manufacturing, 8 students complete their OSHA -10 construction certification, 17 students complete their CPR certifications, and 6 students completed 16 ASE certifications.

LSRV Graduates graduated with 66 total credits, VHS with 5, and RHS with 605.

We are looking forward to a busy summer with numerous community education courses, political forums, and prep for next school year.
