

UTAH SYSTEM OF
HIGHER EDUCATION

MEMORANDUM

May 12, 2023

Research Priority of the Board's Strategic Plan

The Board of Higher Education has asked the Academic Education Committee to develop suggestions for goals related to the research role of degree-granting institutions and initiatives and tactics to help reach those goals for inclusion on the Board's Strategic Plan.

During its February and April meetings, the Committee discussed examples of goals and strategies developed in other systems or at institutions. At its April meeting, it developed the parameters of a research strategy to forward to the full board for consideration on its Strategic Plan in May 2023.

Commissioner's Recommendation

The Commissioner recommends that the Board include a priority for a system-wide research focus as part of its Strategic Plan.
