

**UCF-4.029 Use of University Facilities; Events and Protests**

**(1) Definitions.**

- (a) “University” means the University of Central Florida.
- (b) “University campus” or “campus” means all grounds and buildings of the University of Central Florida occupied or controlled by the University or under the guidance, supervision, regulation, or control of the University of Central Florida. “University campus” or “campus” does not include those facilities occupied by the University in leased or shared-use facilities; instead, events at those facilities must comply with policies and procedures prescribed by the owner of the facility. (E.g., Seminole State College establishes guidelines for events at Seminole State College, including in those areas used by the University of Central Florida.) “University campus” or “campus” does not include Research Park or affiliated housing.
- (c) “University facilities” means all buildings and grounds, including athletic and recreational fields, on the University campus.
- (d) “Instructional space” means all University facilities used primarily for the conduct of scheduled classes and other academic activities, including but not limited to classrooms, laboratories, studios, theaters, auditoriums, and lecture halls.
- (e) “University Grounds” means the generally accessible outdoor areas of campus, as defined by section 1004.097, F.S., in which members of the campus community are commonly allowed, including grassy areas, walkways, or other similar common areas. The term does not include outdoor areas of campus to which access is restricted such as parking facilities, athletic or recreational facilities, the grounds of the Creative School for Children, or the grounds of the Burnett House. The term also does not include courtyards or grounds within the curtilage of University buildings, or grounds immediately adjacent to University buildings where activities or use could impair entrance to or exit from the building or interfere with operations within the buildings.
- (f) “Event” is a gathering or activity, typically involving multiple persons. A gathering or activity does not have to be scheduled in advance to constitute an event. An event may be expressive in nature and constitute an “expressive activity,” as defined below.
- (g) “Potentially hazardous event” is a gathering or activity that, due to the size of the gathering or the nature of the activity, could reasonably be expected to create a risk of harm to persons or damage to property. Potentially hazardous events are also subject to the requirements of University Regulation UCF-4.0292.
- (h) “Expressive Activities” are activities such as assemblies, exercises of free speech, protests, parades, marches, and picketing protected under the First Amendment to the United States Constitution and Article 1 of the Florida Constitution. For purposes of this regulation, expressive activity does not include solicitation or other commercial speech.
- (i) “March” means an organized walk, run, or procession by a group of people for a specific cause or issue where the organizer does or could reasonably expect at least 50 people to participate.
- (j) “Parade” means a public procession, sometimes including a marching band or float(s) and often of a celebratory nature, held in honor of an anniversary, event, person, cause, etc.
- (k) “University organizations” means units of the University (i.e., colleges, schools, divisions, departments, institutes, or centers); the Student Government Association; and certain corporate entities authorized by the University that operate for the benefit of the University (including but not limited to all University direct support organizations,).

- (l) “University-related organizations” means registered student organizations; honor societies officially recognized by the University; and those organizations that, although not officially recognized or registered by or affiliated with the University or otherwise failing to meet the definition in paragraph (j) above, are related to the University because they promote the interests of the University or perform other service to the University, such as nationally or regionally organized academic professional associations or professional fraternal societies supported by an academic unit. Other public educational institutions and other governmental agencies of and within the State of Florida may be treated as “University-related organizations” at the discretion of the University.
- (m) “Non-university organizations” means persons or organizations that do not meet the definitions in paragraphs (j) and (k), immediately above. “Non-university organizations” include unregistered student groups; candidates for election to public office; organizations supporting such candidates; charitable organizations; organizations that exist primarily for the purpose of carrying on commercial activity for profit; and those persons whose activities are primarily for personal gain or benefit.
- (n) “Organization” means any group of persons or individuals, whether incorporated or not and whether organized by means of bylaws or not, acting in coordinated fashion, including clubs.

(2) **Use of University Facilities – Reservation of Rights; Priority of Use**

- (a) University facilities are reserved and used primarily for the official and regular conduct of the University’s business by the University and the campus community. The University supports and encourages the exposure of its students and employees to a diverse and varied marketplace of ideas, but is dedicated foremost to the University’s mission and to the State of Florida’s directive to educate its students and engage in research and other scholarly activities. Therefore, the University gives precedence to the educational and administrative activities of the University and limits the use of University facilities by non-University organizations and persons, as outlined herein.
- (b) Certain campus facilities which are funded by student activity and service fees may give priority to student events and activities over university department business, according to policies set by those facilities.
- (c) The general public may access the streets, libraries, bookstores, and parking lots on campus solely for the purposes of conducting legitimate business with the University and participating in University-related activities that are open to the public. Unless invited by someone with authority to do so, members of the general public shall not have access to lecture halls, classroom buildings, classrooms, laboratories, studios, residential facilities, research areas, administrative buildings, faculty or staff offices, or other buildings and areas reserved for University housing, teaching, research, administration, recreation, creative activity, or athletic activity.
- (d) The University reserves the right to change, relocate, cancel, or reschedule an event, expressive activity, or scheduled use of University facilities, as necessary, due to:
  - (i) the need to accommodate University educational and administrative activities;
  - (ii) an emergency; or
  - (iii) reasonable grounds to believe that the use or activity presents an imminent threat to health, safety, or welfare that cannot be sufficiently mitigated using reasonable alternative means.

### (3) **Scheduled Use of University Facilities**

- (a) University organizations and University-related organizations may request non-commercial use of University buildings, and particular facilities may be assigned in response to such requests on a non-interference basis, subject to the requirements of the University.
- (b) Use of University buildings, indoor facilities, and athletic or recreational facilities must be scheduled in advance. Recreation and Wellness Center recreational fields and areas are not generally accessible for common access by the university community, but may be available for reservation under procedures established by the Recreation and Wellness Center. Athletic facilities may be scheduled for use provided such use is authorized by the Athletics Association. Except in regard to expressive activities on occasions where there is not a prior reservation or scheduled event, use of certain areas of University Grounds must be scheduled in advance: Memory Mall, Lake Claire, the Reflecting Pond, the Arboretum, and Ferrell Commons courtyard.
- (c) Certain University facilities may be reserved by the general public, for a fee, on a space-available basis, pursuant to a facility use agreement or other formal arrangement with the University, for personal purposes (such as a reception) or commercial purposes (such as a test preparation service), subject to the policies and procedures of the University and the specific facility. This includes Memory Mall, rooms within the Student Union or Ferrell Commons, the Live Oak Event Center, the Fairwinds Alumni Center, the UCF Arena, and various outdoor recreation facilities. The University reserves the right to charge use fees on a differential basis depending on a number of factors, including but not limited to: nature of the proposed use, size of expected crowd, presence of potentially hazardous items or activities, whether the user is affiliated with the University, whether the user is an educational or governmental entity, and whether additional security, [campus services](#), or utilities will be required. Usage fees and/or service charges will be assessed by the authority controlling the facility to defray the costs of use. Charges will not be imposed for the spontaneous conduct of expressive activities on University Grounds as defined above. However, if a person or organization wishes to reserve an outdoor area of campus for exclusive, prescheduled use to conduct expressive activities, and such outdoor area is available, then the requestor will be expected to pay a usage fee and/or service charge otherwise charged for such reservations.
- (d) Requests for scheduling events in University facilities should be directed to the authority controlling the facility.
- (e) Even where advance scheduling is not required, persons and organizations are encouraged to schedule events and activities in advance, because scheduled events and activities are given priority over unscheduled ones, except in the event of an emergency or the need to conduct educational or administrative activities of the University.
- (f) Use of University facilities for solicitation or other commercial speech must be scheduled and approved in advance and cannot be sponsored by a University organization or University-related organization. The University shall review commercial use requests in light of the University's contractual and other legal requirements, the relationship of the activity to the University's mission, and the benefit of the activity to the University and the State of Florida. Commercial use of University facilities is governed also by University Regulation UCF-4.010.

### (4) **Use of University Facilities – General Principles**

- (a) The University shall not discriminate on the basis of the viewpoint expressed by any person or organization making authorized use of University facilities.
- (b) No person or organization may use University facilities for unlawful purposes or in an unlawful manner.
- (c) A condition for the scheduled use of University facilities may be that the sponsoring person or organization obtain adequate insurance coverage and/or that adequate security be provided by the University Police. The costs of such insurance and/or security shall be borne by the event sponsor/organizer. See University Regulation UCF-4.0292 for further information regarding insurance requirements.
- (d) No outside food service shall be permitted on or in University facilities during, or in conjunction with, any public meeting, event or function without the specific approval of the University.
- (e) Camping is prohibited on campus, except where such camping is in connection with an official activity of the University, such as an activity of an academic or administrative unit, and has been approved in writing by the Senior Vice President for Administration and Finance, the Provost, or one of their designees. Camping means the use of any outdoor space for living accommodation purposes, such as overnight sleeping activities, making preparations for overnight sleeping (including the laying down of bedding for the purpose of sleeping), storing personal belongings, making a fire, using any tents or other structures for sleeping, digging or earth breaking, and/or carrying on cooking activities. Such activities constitute camping when it reasonably appears, in light of all the circumstances, that the participants, in conducting these activities, are in fact using the area as a living accommodation regardless of the intent of the participants or the nature of any other activities in which they may also be engaging. Tailgating associated with athletic events at times designated by the University is not camping.
- (f) Sponsored use. Non-university organizations and persons may use University facilities for events if specifically sponsored by a University organization or a University-related organization. Such sponsorship requires the University organization or University-related organization to be a participant in the event, including being physically present throughout the event.
- (g) If the proposed use of a University facility qualifies as a potentially hazardous event, the user must follow the requirements (including insurance requirements) of Regulation UCF-4.0292. The event organizer must submit forms and information for potentially hazardous events sufficiently in advance of the proposed event to allow for University review and ensure the safety and security of the event. .
- (h) The possession or use of firearms, explosives, or munitions on campus is generally prohibited. Law enforcement personnel may carry firearms or munitions and may use them in the course of law enforcement activities. The University also reserves the right to permit the use of firearms or munitions by military personnel or trainees and in limited circumstances with approval. See University Policy 3-119.2 for more information.
- (i) A person or organization making use of University grounds, as defined in (1)(n) above, for expressive activities does not have the right to conduct commercial activities in conjunction with the person's expressive activities unless the commercial activity has been approved by the University.
- (j) Amplified Sound. The University does not permit the use of amplified sound, including use of bullhorns, as part of events or expressive activities conducted on University grounds, except as approved in advance by the official responsible for the particular

grounds being used, or as set forth in this paragraph. Absent specific instructions provided by University officials, the approved use of amplified sound may not exceed a limit of 70 decibels. Even where use of amplified sound is pre-approved, the University reserves the right to impose different volume restrictions on the use after consideration of the impact of amplified sound on the operations of the University at the particular date and time of the event/activity.

#### (5) Use of University Facilities – Conditions of Use

- (a) Limitations on Signage and Displays. “Displays” means signs, banners, posters, or flyers not held or carried by a person. Displays may be static, dynamic, or electronic, such as LCD digital signage. ~~Regardless of whether they are part of an event or expressive activity, a~~ All displays in connection with an event, including expressive activity, must comply with the Florida Building Code if applicable and adhere to the following guidelines:
  - (i) Outdoor displays are allowed only in conjunction with an event.
  - (ii) Displays are restricted to a size of eight feet by four feet. Screens for projection purposes may be larger if approved through the potentially hazardous events process or by the Senior Vice President for Administration and Finance or designee.
  - (iii) Displays must be assembled and disassembled each day.
  - (iv) Displays must be staffed at all times by the person or organization sponsoring the display.
  - (v) Displays must not be attached or affixed to University property, such as buildings, poles, or trees without prior authorization of the University; even if authorization is provided, the user is responsible for doing so in a manner that will not cause damage to the University property.
  - (vi) There is a five-day maximum on displays and signs associated with an event.
  - (vii) The same display cannot be sponsored by the same or different organizations successively merely to extend the five-day maximum.
  - (viii) If a display requires a constructed support structure, then it must be reviewed and approved by a University building code official or safety officer. A sketch drawing of the display indicating the size and construction materials must be submitted with the SAFE Form.
- (b) Facilities must be returned to their original condition following use. Users will be billed for the costs of any required cleanup. Users will be billed for damage to University facilities attributable to the use, beyond normal wear and tear.
- (c) All events, including expressive activities, using University facilities must comply with this regulation, Regulation UCF-4.0292 if the event is a potentially hazardous event, and with the following:
  - (i) Events may last no more than five days in succession. The same or different organizations may not sponsor the same event in succession in order to extend this maximum limitation.
  - (ii) No organization may reserve University facilities and then permit the facilities to be used by any other person or organization. When a University facility is reserved, reservations must be made in the name of a specific person or organization, and that person or organization must be present and actively utilizing the space so reserved. The University may shut down an event (or revoke the reservation) if the person or organization reserving the facility is not present and/or not actively utilizing the space.

- (iii) Events and expressive activities generally are limited to the hours of 8:00 a.m. to 8:00 p.m. Sunday through Thursday, and 8:00 a.m. to 10:00 p.m. Friday and Saturday. Events and expressive activities outside of these hours must be specifically approved by the University at least fifteen calendar days in advance, so that the University can make custodial and security arrangements.
- (iv) Damage to University or personal property in the course of use of University facilities is prohibited. Care should be taken to ensure that University and personal property is not damaged or destroyed. This includes campus lawns, grassy areas, shrubs, plants, and trees.
- (v) No person or organization shall restrict the movement of another person or persons, including by blocking or obstructing ingress or egress of roadways, walkways, sidewalks, driveways, buildings, parking structures, fire lanes, windows, doors, or other passageways to University property, or otherwise deny a person or persons access to a University facility or space. This provision does not apply to restrictions placed by University officials acting within the scope of their job duties or by persons who have been given specific authorization by the University.
- (vi) No person shall wear a mask, personal disguise, hood, or other item to conceal their identity with the intent to intimidate any person or group, or for the purposes of evading or escaping discovery, recognition, or identification in connection with or during the commission of a violation of law, regulation, or policy.
- (vii) No person on University facilities shall refuse to identify themselves to University officials, including law enforcement officers, who are acting in the performance of their duties. Additionally, students of the University are required by the Student Code of Conduct to provide identification upon request by a University official acting within the scope of their job duties or by a law enforcement officer acting in a law enforcement capacity.

**(6) Demonstrations and Protests**

- (a) Except as limited by this or related regulations, or as limited by applicable laws or University policies, University grounds (as defined in (1)(n), above) may be used for demonstrations, protests, and other exercises of free speech and assembly subject to reasonable time, place, and manner restrictions set forth in this regulation, including that such use be lawful and non-disruptive and not infringe on the rights of others.
- (b) No campus buildings, other indoor facilities, or athletic or recreational facilities may be used by anyone for demonstrations, protests, assemblies, events, or other functions unless specifically permitted in writing by ~~athe-campus~~ official with authority to provide such permissions~~specifically responsible~~ for the building or facility sought to be used.
- (c) Campus demonstrations or protests that will take the form of or involve a parade or a march and during which the participants will use or cross lanes of vehicular or pedestrian traffic must follow the requirements of University Regulation UCF-4.0292, "Potentially Hazardous Events."

**(7) Reservations for designated outdoor areas are available to the University Community.** The University community (e.g., University students and employees, University organizations, and University-related organizations), may reserve certain outdoor areas of campus on a space-available basis, for the exclusive use of the reserving individual or organization.
