

Kentucky Community and Technical College System Board of Regents

Update Agenda Item: Enrollment Report

Background:

Thanks to the robust dual credit opportunities offered by KCTCS, Fall 2024 enrollment has reached a ten-year high. Post-COVID, credential-seeking enrollment is on the rise, and adult enrollment has shown year-over-year growth for the past two years – the first such increases since the Great Recession. A presentation will highlight key themes in the current fall enrollment and provide an early look at registration for Spring 2025.
