**WSU Global Campus
2024 – 2029 Strategic Plan**

WSU Global Campus Strategic Plan

Introduction

Since the very first offering of distance degree programs at WSU in 1992, students' experiences have evolved as new technologies and learning innovations have become available. As the OneWSU system has evolved, Global Campus has continued to focus on leveraging their strengths as **one** part of the **whole** system.

Because Global Campus knows no boundaries, the OneWSU education can be offered to any student, anywhere, anytime. The strategic plan supports WSU's core mission through all of its goals and objectives and aligns closely with the system goal to prepare future leaders, scholars and global citizens (System Goal 2) and to advance a culture of engagement and collaboration across its multi-campus system that values and invests in resources (System Goal 4).

ATTACHMENT A: ESFCOM AY24-25 Tuition Increase

ESFCOM Tuition AY24-25

Justification.

The Elson S. Floyd College of Medicine (ESFCOM) is proposing a 3.0% tuition increase for resident medical students across various campus locations such as Spokane, Tri-Cities, Vancouver, and Everett. The intention behind this increase in revenue is multi-fold:

- Offsetting inflationary cost rises
- Enhancing students' access to academic and career advising
- Supporting community-based education costs and the volunteer physicians serving as clinical preceptors
- Facilitating faculty recruitment and retention to fulfill roles such as small group facilitators, research mentors, and career-focused track guides
- Additionally, there is a request for a fee increase to support the standardized patient program, vital for imparting clinical skills through teaching, practice, direct observation, and feedback to students.

Our original pro-forma of the college incorporated an annual 3% tuition increase. The proposed increase in tuition is aimed at providing sustainable financial backing for both ESFCOM and its students. Despite implementing cost reduction strategies, sustaining programs and meeting accreditation requirements seems unattainable without this tuition increase.

Supporting data highlights that the overall cost of attendance at ESFCOM remains below the national average of similar community-based medical schools listed by the AAMC (Association of American Medical Colleges) in their 4-year Average Total Costs of Attendance.

	Resident
Current Rate (Annual)	40,891
Proposed Rate (Annual)	42,118

Describe the timeline and process used to communicate the proposed increase to students and gather student feedback.

ESFCOM submitted an online survey in January to all MD students to collect feedback on the proposed 3.0% tuition increase. Approximately 11% of students responded. A majority of respondents expressed concern with the proposal's effect on program affordability and student debt load. Respondents also expressed a need for increased scholarship aid to be provided by the college, including offerings for under-represented students. The college is working with the WSU College of Medicine Medical Student Council to provide a forum for the college to follow up on feedback received in the survey.

Historical and Anticipated Future Increases in ESFCOM Operating Fees

To further support students, we are offering comprehensive financial counseling services and capping tuition increases at 3%. Our projections indicate that the total cost of attendance over four years will remain below the national average, pending confirmation from the 2023 AAMC Tuition/Fees Survey data soon to be released. Furthermore, we are equipping students with a comprehensive external scholarship database to broaden their financial opportunities. Additional efforts to mitigate student debt involve multifaceted approaches. Firstly, we are initiating scholarship funds for every graduating class, alongside ongoing annual fundraising efforts. Moreover, we are strategically channeling some of these funds towards establishing long-term endowments. Additionally, we've successfully acquired significant scholarships for students committed to serving in rural or underserved areas of Washington state. These collective efforts aim to alleviate the burden of student debt and promote financial stability for our students.

According to our projections, starting with the class of 2025, the estimated student debt for COM is expected to surpass the national average by 20%, based on the following assumptions. COM tuition will have annual increases of 3%. Living expenses within the COM are set at a 5.9% rate, determined by the January 2022 SSAN COLA. Additionally, the national average debt for public school stands at 1.0%, calculated based on the average of the past five years.

WAC 504-36-020 Control of animals.

This section governs the control of animals and pets on property owned or controlled by Washington State University.

(1) This section does not apply to animals owned by the university or under its care, custody, and/or control.

(2) Subsections (3) and (8) of this section do not apply to trained guide dogs or service animals that are being used by persons with disability.

(3) Animals are not permitted in university buildings, except in facilities that are the site of university-authorized events, such as stock shows, horse shows, parades, or demonstrations at sporting events, where the animals are participants in said events, or as allowed by university housing policies.

The executive vice president for ((business and)) finance and administration, the president, ((the)) chancellor ((of a branch campus)), or such other person as the president may designate, may waive this subsection for guide dogs in training or service animals in training, provided that such animals are present on campus with trainers or handlers who have a demonstrated history of training such animals.

(4) Animals are not permitted on university property unless under immediate control of their keeper, except as otherwise allowed under this rule. "Keeper" includes an owner, handler, trainer, or any person responsible for the control of an animal. "Under control" means the restraint of an animal by means of a leash or other device that physically restrains the animal to the keeper's immediate proximity. An animal which is otherwise securely confined while in or upon any motor vehicle, including a trailer, is deemed to be under control.

(5) The requirement that animals be under immediate control of their keeper does not apply to:

(f) An animal participating in a university-authorized event, such as a stock show, horse show, parade, extension or outreach event, or demonstrations at a sporting, teaching, or agricultural event.

(6) Any stray dog or other animal that is running loose on university property is subject to impound by local authorities in accordance with the municipal or county ordinances that apply to each campus.

(7) The keeper of any animal must remove for disposal any fecal matter deposited by the animal on university premises before the keeper leaves the area where the matter was deposited. This requirement does not apply to an individual who, by reason of disability, is unable to comply, or to individuals bringing animals to university-authorized events where arrangements have been made for the removal of fecal matter.

(8) The executive vice president for ((business and)) finance and administration, the president, ((the))a chancellor ((of a branch campus)), a service animal administrator, or such other person as designated by the president, may designate areas on a campus otherwise open to the public as restricted from access by dogs or other animals even when under the control of their keepers for safety reasons or where the presence of dogs or other animals conflicts with the educational or research missions of the university.
