INFORMATION:**

State law authorizes the governing boards of the four-year higher education institutions to establish tuition rates. Tuition rates for all student categories except resident undergraduates may increase or decrease without limit.

Tuition rate proposals for the Elson S. Floyd College of Medicine are being considered on a timeline separate from other tuition rates. The College is proposing a 3.3 percent increase for academic year 2025-26, which would increase the current \$42,118 rate by \$1,390 to \$43,508.

The proposed tuition rate increase was shared with students, who were given the opportunity to provide feedback. You can review the student feedback provided in Attachment B.

It is expected that tuition rates for continuing students will increase annually to support inflationary costs and University initiatives. Each year tuition rates for continuing students will be presented to the Board for review and approval. Beginning for the 2026-27 school year, differential rates for students entering the MD program are being proposed in a separate action.
