Cerner

What have we been working towards the last 40 years?

An EMR-Centric view of the healthcare world

Cerner

Re-introducing Cerner

Commitment to patients, caregivers, and the role EHRs can play in discovery, teaching and high-quality patient care

Commitment to open and interoperable systems and data as a hallmark of Cerner

Diverse set of clients from the largest health systems in the world to the rural critical access hospitals: Academics, Children's, Clinics, National systems of care, community hospitals, DOD/VA

Global market share leader by a large margin

Cerner solutions are home grown. Our acquisitions and partnerships have worked to create a full portfolio of solutions to simplify clients' operations and contracting

Oracle represents an opportunity to extend world's 2nd largest software company into HC by investing and growing with Cerner

Cerner

Getting the right patient information to caregivers everywhere

Cerner

Local and Nationwide Interoperability – CommonWell & Carequality

- The CommonWell and Carequality network provides access to over 50,000 organizations nationwide
  - ~ 90% of the Acute market and 60% of ambulatory

- Broward Health's CommonWell to Carequality connection went live in November 2019

- Broward shared **637K** documents and received **305K** documents via these platforms in 2021

Broward Health Interoperability – US Map

Documents received since inception: *977,998*
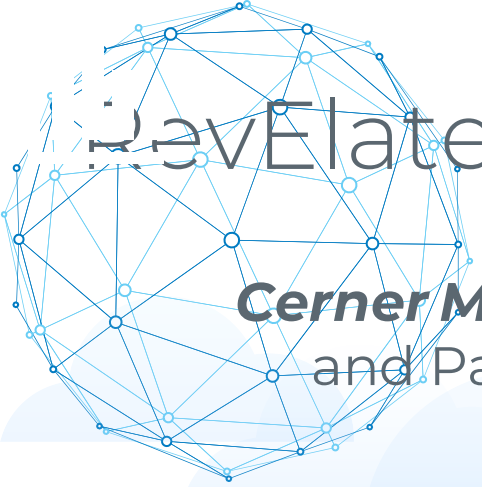

2021 docs received: 305,687

Documents provided since inception: 3,575,569

2021 docs provided: 637,806

Dark Blue Circles –
Volume of shared
Documents. Bigger
Circle = more volume

RevElate™ Building blocks for success

Cerner Millennium EMR and Patient Access
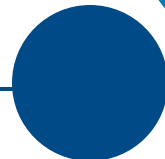

Bundled claim management

Cross-venue patient accounting workflows

Derived from *Soarian*®

Clinically Driven Ecosystem

Cerner Healthe *Enterprise Data Warehouse* strategy

Extensible platform for innovation

Integrated patient experience across venues ⟷ Seamless end user workflows ⟷ Clinically driven revenue cycle ⟷ Manage AR across legacy systems

All solutions/services under development. Cerner makes no assurances that the capability described herein will be provided in the solution/services.

The Path Forward: looking to 2040

What will HC and HC IT look like?

- Workforce challenges

- Changing business models, markets, consolidations in a post-COVID World

- Science, Discovery, Translational Medical and personalized care

- New Access, documentation, and interface methods: Voice, Virtual Reality

- A shift in the computing paradigm: cloud computing, AI/ML, open systems

- Full realization of a patient/consumer/family-centered model

How will your core suppliers adapt and lead through these external changes?

Cerner

Seeing the end of the EHR era

Harvard Business Review

ANALYTICS

It's Time for a New Kind of Electronic Health Record

by John Glaser

June 12, 2020

- ✅ Stay the course or rip and replace?

- ✅ Will EHRs be the value driver to transform the caregiver and patient experience?

- ✅ *Information Blocking* frees e-Health data: Seamless Exchange makes it usable

- ✅ Data is the new oil!

- ✅ Augmented human intelligence to address complexity and work force

- ✅ **Propose: EHRs shift to be platform for digital health innovation**

Cerner

Speed to value and leverage investment

- Optimize existing workflows & solutions to maximize investment (2022-2023)

- Evaluate staff and org readiness for the journey: workforce considerations

- Enrich provider experience through advanced interoperability, seamless exchange

- Modernize Revenue Cycle through Invision migration to RevElate

  - Reg/Sched (2022-2023)
  - Patient Financials (2023)

- Extend Population Health tools to assure quality and drive revenue growth

- Move existing device connectivity to the Cloud and continue enterprise deployment

- Transform consumer experience with digital front door

- Governance model

Cerner

Broward Health and Cerner

It has been a privilege to serve you the past 30 years.

Let's continue to transform the future of healthcare, together.
