Weighted average based on actual FY2023 enrollment

Note: Fees include revenue fund charged to all students, technology, athletics, health services, student activity/life, parking and statewide student association.

\*The parking fee is excluded from the calculation for Winona State University as it is only assessed to Rochester Center students.

## Fiscal Year 2025 Fee Overview

Pursuant to Board Policy 5.11, the board has established the fee structure and maximum fee amounts that colleges and universities may charge. These fee maximums were reviewed and revised in 2023. All fee rates included in the proposed fiscal year 2025 annual operating budgets are within the established parameters. This overview describes the fees that are generally charged to all students each term, including campus discretionary and revenue fund fees.

Pursuant to Minnesota Statutes Section 135A.0434 and System Procedure 2.8.1 Student Life, increases in student activity fees, including athletic fees, may not exceed two percent unless the increase is approved by a majority of students voting in a campus referendum. For fiscal year 2025, two colleges and one university held referendums to increase student life/activities fees. These increases ranged from \$1.04 to \$2.60 per credit. One of these increases included the creation of a separate sustainability fee. One college and six universities held referendums to increase athletics fees. These increases ranged from \$0.47 to \$1.75 per credit. All referendums passed with between 60 and 86 percent of eligible votes cast.

Pursuant to Board Policy 5.11, the chancellor may limit fee increases before they are presented to the board as part of the annual operating budget. Where proposed increases in campus discretionary and revenue fund facilities fees total more than three percent in aggregate, a system office staff review is performed to document justification for the increases before the increases are allowed to move forward. For fiscal year 2025, ten colleges brought forward no increases in fees. Ten colleges are increasing fees in aggregate by less than 3 percent. Six colleges and all seven universities are increasing fees in aggregate by more than 3 percent.

Supplemental materials table SP-3 lists each fee generally charged to all students each term, including campus discretionary and revenue fund facilities fees. Statewide student association fee rates are also included in the totals. Statewide student association fees are collected on behalf of the associations to fund their activities pursuant to Minnesota Statutes Section 136F.22 and are not included in the calculations of overall fee increases below.

As required by Minnesota Statutes section 136F.20, supplemental materials item SP-8 provides annual accounting information for each college and university that charges a health services fee.

The following information describes individual college and university fee increases that were subject to referendums or where aggregate increases (excluding statewide student association fees, which go to the associations) total more than three percent. No aggregate fee changes result in an increase of more than \$93 per year for a full-time student.

### Colleges

**Anoka-Ramsey Community College:** The overall fee increase of roughly 7.5 percent is due to an increase in the **athletics fee** of \$1.75 (54.7 percent). Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **60 percent voting in**

**favor.** Reasons for the fee increase include costs of equipment, uniforms, transportation, lodging, and athletic training staff. The dollar increase is the same on both campuses but is an overall increase of 7.8 percent on the Cambridge Campus and 7.2 percent on the Coon Rapids campus. Fees for student activity/life and technology are higher on the Cambridge campus but the Coon Rapids campus has a wellness center fee, which the Cambridge campus does not.

**Dakota County Technical College:** The overall fee increase of 11.3 percent is composed of an increase in the **technology fee** of \$1.00 (9.4 percent), and an increase in the **parking fee** of \$2.04 (68.9 percent). Reasons for the technology fee increase include costs related to mobile technology, wi-fi hotspots, and technology support. The reason for the parking fee increase is to fund the pavement management plan over the next ten years.

**Hennepin Technical College:** The overall fee increase of 13.3 percent is due to an increase in the **student activity/life fee** of \$2.60 (66.7 percent). Because the student activity/life fee is being raised by more than 2 percent, a student referendum was required and passed, with **77 percent voting in favor**. Reasons for the fee increase include costs of events and staffing needed to continue to provide the current level of services to students.

**Inver Hills Community College:** The overall fee increase of 14.1 percent is composed of an increase in the **student activity/life fee** of \$0.11 (2 percent), an increase in the **technology fee** of \$0.91 (8.5 percent), and an increase in the **parking fee** of \$1.90 (61.3 Percent). Reasons for the student activity/life fee increase include inflationary pressures affecting staff salaries, supplies, and contractual obligations needed to ensure continued quality and sustainability of student programs and services. Reasons for the technology fee increase include costs related to mobile technology, wi-fi hotspots, and technology support. The reason for the parking fee increase is to fund the pavement management plan over the next ten years.

**Minnesota State College Southeast:** The overall fee increase of 8.4 percent is due to an increase in the **technology fee** of \$2.00 (16.7 percent). The increase comes at the request of the student senates on both (Red Wing and Winona) campuses. Reasons for the increase in the technology fee include supporting better and more reliable connectivity of internet in the Winona nursing area, increasing the wireless speed at both the Winona and Red Wing campuses, and the purchase of additional computers for increased student access.

**Pine Technical College:** The overall fee increase of 10.3 percent is composed of an increase in the **student activity/life fee** of \$2.00 (58.8 percent) and an increase in the **parking fee** of \$0.12 (2.8 percent). Because the student activity/life fee is being raised by more than 2 percent, a student referendum was required and passed, with **62 percent voting in favor**. Reasons for the student activity/life fee increase are to enrich the student experience and enhance campus amenities. Reasons for the parking fee increase are to ensure the continued upkeep and safety of the parking infrastructure.

## Universities

**Bemidji State University:** The overall fee increase of 6.4 percent is composed of an increase in the **athletics fee** of \$1.58 (33.8 percent), an increase in the **health services fee** of \$0.90 (14 percent), an increase in the **technology fee** of \$0.35 (3 percent), and an increase in the **sustainability fee** of \$0.25 (2.8 percent). Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **62 percent voting in favor**. Reasons for the athletics fee increase include increased costs over the past ten years and a desire to reduce the amount of fundraising needed to support the programs. The reasons for the health services fee increase are students asking for more mental health professional help and support services. The reason for the technology fee increase is students asking for technology in classrooms and on campus to stay up to date. The reason for the sustainability fee increase is students asking for an expansion of sustainability efforts on campus.

**Metropolitan State University:** The overall fee increase of 5.1 percent is composed of an increase in the **health services fee** of \$1.00 (100 percent) and an increase in the **technology fee** of \$1.00 (7.7 percent). The reason for the health services fee increase is to maintain access to counseling services, psychiatric services, de-escalation training, vaccine clinics, and more. These services are directly related to increasing student success at the university. The reason for the technology fee increase is to maintain quality technology and service for academic and support needs. This increase was envisioned last year as part of a two-year plan for addressing technology needs.

**Minnesota State University, Mankato:** The overall fee increase of 7.3 percent is composed of a combined increase in the **student activity/life** and **sustainability** fees of \$1.04 (10.2 percent), an increase in the **athletics fee** of \$1.00 (21.8 percent), an increase in the **health services fee** of \$0.45 (8 percent), an increase in the **technology fee** of \$1.00 (8.3 percent), and a *decrease* in the **student union fee** of \$0.09 (0.6 percent). Because the student activity/life and the athletics fees are being raised by more than 2 percent, referendums were required and passed, with **77 percent voting in favor** in each case. The sustainability fee is currently included within the student activity/life fee, but the student government also voted to separate out the existing amount for sustainability (\$1.44) as a separate fee at the same rate. The entire \$1.04 increase to the combined fees is on the student activity/life portion alone, meaning that portion is increasing by 11.9 percent. This percentage was noted in the approval process. Reasons for the student life/activity fee increase include students desire to maintain and improve student activity support, combat food insecurity, provide better support for student leaders, to improve student retention, and to combat significant inflationary pressures. Reasons for the athletics fee increase include significant inflationary pressures over several years and desires to strive for excellence across programs. Reasons for the health services and technology fee increases were to address inflationary pressures and maintain service levels.

**Minnesota State University Moorhead:** The overall fee increase of 6.2 percent is composed of an increase in the **student activity/life fee** of \$0.16 (1.9 percent), an increase in the **athletics fee** of \$0.98 (19 percent), an increase in the **technology fee** of \$1.50 (14.3 percent), an increase

in the **sustainability fee** of \$0.20 (14.3 percent), and an increase in the **student union fee** of \$0.59 (4 percent). Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **86 percent voting in favor**. Reasons for the student activity/life fee increase are to maintain programs and affordability for students. Reasons for the athletics fee increase include addressing years of inflationary pressures and supporting the needs of the programs. Reasons for the technology fee increase include the continuation of investments in Classroom HyFlex audio enhancements, wireless coverage and bandwidth expansion, video surveillance and door control or security, and operational inflation. Reasons for the sustainability fee increase include student desires to fund a full-time sustainability coordinator (new employee starting Summer 2024), student sustainability internships, and student ridership on public transportation (MATBUS). The reason for the student union fee increase is to support the increased costs of operating this important, highly used space.

**Southwest Minnesota State University:** The overall fee increase of 3.9 percent is composed of an increase in the **athletics fee** of \$1.85 (42 percent), and an increase in the **student union fee** of \$0.48 (3 percent). Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **70 percent voting in favor**. Reasons for the athletics fee increase include the desire to offset some of the fundraising being done by athletic teams now and to address cost increases, especially in travel costs. The reason for the student union fee increase is to address inflationary costs.

**St. Cloud State University:** The overall fee increase of 7 percent is composed of an increase in the **student activity/life** of \$0.25 (2 percent), an increase in the **athletics fee** of \$1.99 (32 percent), an increase in the **health services fee** of \$1.53 (2 percent), an increase in the **technology fee** of \$1.24 (10 percent), an increase in the **student union fee** of \$0.51 (3 percent) and an increase in the **facilities assessment fee** of \$0.16 (1.9 percent). Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **61 percent voting in favor**. Reasons for the fee increases are to meet increasing costs and maintain quality activities and services for students. For the athletics fee increase, costs of travel have been especially high in recent years.

**Winona State University:** The overall fee increase of 6.9 percent is composed of an increase in the **student activity/life fee** of \$0.14 (1.9 percent), an increase in the **athletics fee** of \$0.47 (10 percent), an increase in the **health services fee** of \$0.38 (5.9 percent), an increase in the **technology fee** of \$0.40 (5 percent), an increase in the **student union fee** of \$0.73 (8 percent), an increase in the **wellness center fee** of \$0.43 (5.5 percent), and the addition of a **sustainability fee** of \$0.42 per credit. Because the athletics fee is being raised by more than 2 percent, a student referendum was required and passed, with **61 percent voting in favor**. The reasons for all fee increases include increasing costs of maintaining quality service levels. For athletics, travel cost increases are especially significant. The sustainability fee was created through an affirmative vote of the campus student association, as required by System Procedure 5.11.1.

**Minnesota State  
FY2024 and FY2025 Fee Rates Per Credit**

Fee Type (Board Maximum)	Student activity/life <sup>3</sup> (\$174 per term)		Athletics <sup>3</sup> (\$75 per term)		Health services (\$90 per term)		Technology (\$14 per credit)		Sustainability (\$20 per term)		Student Union Facilities (Rev)		Wellness/ Recreation Facilities (Rev)		Parking <sup>5</sup>		Total annual fee per FYE <sup>#</sup>

## Reserve Analysis

Reserves are portions of cash fund balances that are set aside with no designated use, making them available only for emergency or unusual uses which were not anticipated. Holding funds in reserve is an important risk management practice at the college, university, and system levels. [Board Policy 5.10](#) and [Procedure 5.10.1](#) set requirements for designated cash reserve levels. The procedure requires colleges and universities to maintain general fund cash reserves in the range of five to seven percent of general fund cash-basis operating revenues through designation as a special reserve amount. In addition, the policy allows the system as a whole to maintain a reserve up to two percent of the total state appropriation. Reserves are one-time resources; once spent they do not replenish without action by the college or university. Consequently, they should not be used to pay for on-going activities.

Colleges and universities are projecting reserve levels totaling \$100.3 million at the end of fiscal year 2025, which represents approximately 6.3 percent of general fund revenues. (See table on next page.)

The accumulation and preservation of college and university reserves is a critical management responsibility. There are four principles related to reserves:

- Sudden revenue shortfall - The system level reserve has been used to assist colleges and universities with financial challenges. The presence of reserves prevents immediate expense reductions when revenue or enrollment falls short. The fiscal year 2023 actual reserves would provide 20 days of operating cash.
- Unanticipated expenses - Board reserves are critical to the financial health of a college or university and its ability to respond to unexpected events without having to impact current operating commitments. Examples include responses to storm damage or new program opportunities.
- Financial protection - A Composite Financial Index (CFI) methodology is used by the Higher Learning Commission (accreditation agency) as a gauge of its member institutions' financial health. Generation of a positive operating margin and the preservation of fund balances are very strong positive influences on the CFI. Financial stress can put the college's accreditation (and access to federal financial aid for students) at risk.
- National best practices - Reserves are also required by rating agencies in order for Minnesota State to retain the AA- rating on the system's revenue fund debt issues. A lower credit rating raises the cost to students for residence hall and student union related capital improvements. The system's combined reserves represent about three months of operating costs, a level deemed at the low end of healthy in the national peer review.

**Minnesota State Colleges and Universities  
Reserves Outlook  
(\$ in millions)**

<u>Fiscal Year</u>	<u>Total</u>	<u>% of Revenues</u>
2006	\$56.7	4.6%
2007	\$63.1	5.2%
2008	\$70.8	5.5%
2009	\$72.1	5.2%

2020	\$109.6	7.0%
2021	\$102.2	6.5%
2022	\$101.2	6.4%
2023	\$103.4	6.5%
2024 est.	\$100.2	6.3%
2025 est.	\$100.3	6.3%

### **System Reserves**

At the end of fiscal year 2024, all but one of the colleges and universities maintain reserves in the five to seven percent range totaling \$100.2 million. All colleges maintain a seven percent reserve except five colleges that are at six percent. Two of the universities will end fiscal year 2024 with a seven percent reserve, four at five percent and one at two percent. The system's reserve level is projected to be at \$13.25 million (one percent of general operating revenue) at the end of the current fiscal year (2024).

The system reserve reduction from \$14 million to \$13,250,000 in fiscal year 2024 reflects the \$750,000 loan to Bemidji State University (BSU) designated as an operating reserve as reported to the Board of Trustees a year ago. Bemidji State University agreed to set aside an additional \$750,000 to maintain an operating revenue of two percent. The university was successful in doing so as they ended fiscal year 2024 with a \$1.5 million reserve. In fiscal year 2025, an additional

\$2 million was requested by Bemidji State University to help address the university's fiscal year 2025 anticipated cash flow challenges. BSU has reduced its operating budget by more than \$11 million over the past two years. The Chancellor, Senior Vice Chancellor for Academic and Student Affairs, and Vice Chancellor for Finance and Facilities have met and will continue to meet with President Hoffman and members of his leadership team regularly to monitor and provide support in addressing the financial challenges at Bemidji State University.

The system reserve in fiscal year 2025 will also be utilized to support a \$2 million loan to St. Cloud State University (SCSU) that will be designated as an operating reserve. Like the fiscal year 2024 \$750,000 loan to Bemidji State University, this loan to St. Cloud State University will ensure their operating reserve is at least two percent of operating revenues. Without this loan, SCSU's reserve would be \$663,158 or less than one percent of operating revenue. For a university of this size, this would provide almost no flexibility to address unanticipated events. SCSU is reducing its operating budget by \$13 million for fiscal year 2025 and many of the decisions recently announced will not produce budgetary savings until the next biennium. The Chancellor, Senior Vice Chancellor for Academic and Student Affairs, and Vice Chancellor for Finance and Facilities have met and will continue to meet SCSU leadership regularly to monitor and provide support in addressing the financial challenges at the university.

Bemidji State University will begin repaying the first of their loans in fiscal year 2026. Bemidji State University and St. Cloud State University will initiate repayment of the loans disbursed during fiscal year 2025 in fiscal year 2027. All loans will be assessed a three percent interest rate for 10 years. This repayment schedule is consistent with eight other loans that have been provided to campuses by the system office over the past twenty years.

Finally, system reserves will also be used in fiscal year 2025 to help pay the up-front costs of redesigning the system office space at the Wells Fargo building. Four million is being set aside to defray these costs, but the savings from our long-term lease will be used to payback the \$4 million loan. By the end of fiscal year 2025, the lease savings will repay \$383,000 to the system reserves. In subsequent years, payments will average \$825,000 with a final payment in fiscal year 2030 of \$315,000.

The system reserve will gradually be restored as loan payments come in, with an expectation of approximately \$1.5 million increase each year. System reserves may also grow by limited amounts when year-end cost savings, such as salary savings that occur during the year, are available. As a result, flexibility for further use of system reserves would be limited should the need arise. Current policy related to system reserves allows the system office to maintain a system general fund reserve of up to two percent of the annual Minnesota State Colleges and Universities state appropriation, which can be used at the discretion of the chancellor. Board Policy 5.10 is scheduled to be up for review in fall 2024 where future strategies will be further discussed with the Board and system stakeholders.

## REVENUE FUND OVERVIEW

### Background

The Board of Trustees maintains statutory oversight of the Minnesota State Revenue Fund, including budget, financial plan, and fee approvals. Revenue Fund facilities and programs include residence halls, dining services, student unions, health/wellness centers, parking and other revenue-generating facilities. Revenue Fund facilities and programs are solely funded by student and user fees. These fees are required to generate sufficient revenue to pay debt service, operate, equip, maintain, and repair Revenue Fund facilities and support their associated programs. Fifteen (15) institutions are currently in the Revenue Fund. Table 1 identifies the institutions and the Revenue Fund facilities and programs at each location. The Revenue Fund is highly influenced by enrollment and residential life utilization as nearly seventy five percent (75%) of Revenue Fund revenues come from room and board.

Minnesota State's Revenue Fund outstanding revenue fund bonds and system outlook are rated on a regular basis by both Moody's Investors Services and S & P Global Ratings. On May 17, 2024, Moody's affirmed Minnesota State's Aa3 issuer rating and A1 debt rating. An Aa3 rating indicates the system is judged to be of high quality and is subject to very low credit risk. It is expected that S&P Global Ratings will update the systems' credit opinion sometime this month.

As colleges and universities develop their annual operating revenue fund budget, there needs to be considerations that are not present in developing their annual general fund budgets such as ensuring that annual debt service coverage ratios (sufficient cash flow available to meet current debt obligations) meet a minimum threshold of 1.25. This ratio is carefully monitored by the two rating agencies.

### FY2025 Revenue Fund Budget Forecast

The forecasted budget for FY2025 reflects revenues by program and expenses by major categories. While FY2025 revenues are forecast to increase by \$7,016,255 over FY2024 driven by increases in residence hall occupancy from COVID-19 lows and an increase in room and board rates (9.06%), the FY2025 budget predicts a \$9,191,030 deficit overall. Nearly 85 percent of this overall deficit is attributable to planned and budget for capital projects for residential life facilities at Minnesota State University, Mankato. Institutions predict employee expenses and food costs are the most material potential increase in expenses.

**Table 2**  
**Proposed FY2025 Revenue Fund Budgets**

	FY2024 Current Budget	FY2025 Proposed Budget	\$ Change	% Change

### Student Consultation and Revenue Fund Budget and Rates

Institutions in the Revenue Fund actively consult with students as called for in Board Policy 2.3, *Student Involvement in Decision-Making*, and system procedure 2.3.1, *Student Involvement in Decision-Making* and with users of the facilities when considering rates and budgets. Rates charged for the Revenue Fund are specific to supporting Revenue Fund programs and facilities, including the pledge to pay outstanding debt, utilities, insurance, and ongoing repairs and replacement.

University and college leaders have been discussing the FY2025 budget with student and institution constituents for several months. Institution student leaders were satisfied with the consultation process that occurred over the past academic year and generally expressed understanding and support for the fee proposals colleges and universities submitted.

Letters documenting the student consultative process are provided in the supplemental materials (SP-14).

## SYSTEM OFFICE BUDGET OVERVIEW

Beginning in fiscal year 2010, the legislature has designated a maximum appropriation for the system office. In fiscal year 2012, that amount was set at \$33.1 million. The amount remained fixed for a decade before increasing to \$34.1 million in fiscal years 2022 and 2023, and, as part of the historic legislative support designated for higher education in the most recent session, set at \$35.4 million for fiscal year 2024. In fiscal year 2025 that amount is set at \$36.4 million, an increase over fiscal year 2024 of \$1 million. The legislature also appropriated additional funds of \$1.5 million annually to support expanded enterprise-wide level technology, including the adoption of Workday as the system's new ERP system.

Almost all that increased support has been and will be used to cover compensation inflation in the system office. State negotiated contracts drive the cost of total compensation increases to those covered under coalition bargaining. About 80 percent of system office employees are employed in bargaining units that are negotiated by Minnesota Management & Budget (MMB).

In the decade prior to fiscal year 2023 system office employee FTE remained relatively flat, approximately 335 FTE. Primarily due to the implementation of Workday for Finance and Human Resources and initial work on Student progressing, employee FTE in the system office has grown to 350 in fiscal year 2023.

As reported during the NextGen update at the March 2024 Board meeting, additional staff of thirty-five net new positions needs to be dedicated to support FIN and HCM Workday over the long-term along with having the necessary staff available to also maintain ISRS for about five more years. System Office fund balance has been dedicated to support the hiring of many of these positions in fiscal years 2024 and 2025. Starting in fiscal year 2026, the approximately \$6 million in annual costs will be shared between the system office (20 percent) and all colleges and universities (80 percent).

Fiscal year 2024 finds the system office with 363 FTE, and fiscal year 2025 has budgeted for 390. The sustainment of Finance and HCM Workday, planning of Student, and acquisition of multiple external grants and sponsored programs has contributed to these increases in FTE.

In January 2024, the board approved an updated office space lease for the system office and associated functions at Wells Fargo Place. The newly negotiated lease saves the system 42 percent over the cost of the current lease. Included are renovations and tenant improvements totaling up to \$9 million, \$4.5 million available through lease terms and the balance, currently estimated at \$4 million financed through system office lease savings.

The system office continues to use a combination of decreased operational activities, holding open personnel vacancies, cost sharing with colleges and universities, and system office fund balance to balance its annual all funds budget. Continued investment in the work required for Equity 2030, system strategic priorities, and the transition to Workday necessitates utilizing

savings realized over the course of several years. The following table shows an updated fiscal year 2024 budget and planned sources and uses for the system office in fiscal year 2025.

The chancellor’s Cabinet continues the on-going discussion of the work of the system office, to ensure that the services available to colleges and universities are cost effective, relevant to current needs, and support the focus on student success.

Our Enterprise Shared Services (ESS) initiative has made progress on three pilots in fiscal year 2024. This initiative works to provide services on an as needed basis, so costs are distributed across participating colleges and universities. A governance group of system leaders meets monthly to lead this initiative. The group includes the four presidents from the leadership council executive committee and the five vice chancellors.

The three pilots in progress include:

- Environmental Health & Safety Compliance Reporting
- Research Suite
  - Institutional Review Board (IRB)
  - Grant Prospecting and Management Services
  - Grant Writing Services
- Sexual Violence Prevention Training

The goal of this work is to pursue opportunities for increasing efficiency of operations as well as mitigate risk in areas that have external compliance requirements while maintaining high levels of service to the colleges, universities, and Minnesota State.

## The Learning Network of Minnesota

The Learning Network of Minnesota is the core telecommunications network infrastructure that supports public higher education in Minnesota and is critical for daily campus and system operations. Minnesota State is appropriated \$4.115 million annually to support this confederation and administers distribution of the funds to members.

The Learning Network connects campuses, system offices, regional learning centers, tribal learning centers, research centers, and extension offices. It supports services and operations such as:

- academic programs, including online, video and on-campus programs
- collaborative research and partnerships with communities and businesses
- financial aid and other administrative transactions
- communications including internet access, video, telephone services, and email
- library services
- global network access

According to their website, “the Learning Network of Minnesota is the education component of the Integrated Statewide Network. The initiative began in 1993 to connect post-secondary institutions and later public school districts and libraries as well. State funds also provided for interactive video facilities to expand educational opportunities. The Learning Network has evolved to include Internet, data, voice, and video services to support academic programs and administrative services.

The higher education portion of the Learning Network has two primary components:

- **Campus Networks** developed and managed by the individual institutions with support from their respective systems
- **The Statewide Network** developed and managed through a partnership of The University of Minnesota, the Minnesota State Colleges and Universities, the six Higher Education Telecommunications Regions and the Minnesota Department of Administration’s InterTechnologies Group [now MNIT Services]

The six higher education telecommunications regions are funded by State of Minnesota legislative grants and by matching funds paid by each region’s member institutions. All of the state’s public education institutions are members of a region.

The integration of the telecommunications regions into the Learning Network provides for more institutional and campus-based decision making in the development of the statewide network. Each region is governed by a board of directors which is representative of its member institutions.”

For additional information about the Learning Network of Minnesota visit [http://www.metnet.edu/about/learning\\_net/index.html](http://www.metnet.edu/about/learning_net/index.html) or <https://www.minnstate.edu/system/lnm/index.html>
