

FINANCE MANAGER REPORT

Reporting Period: 1st Quarter, 2020

Prepared By: Stephanie Mandregan, Finance Department Manager

Date: March 11, 2020

The finance department is doing the prep work to begin using MuniRevs to assist with the new online remote seller sales tax collection. When it's all set up it will also help the Nadia with the regular annual business registration fees & submittals of businesses that the City regularly works with, and we'll be able to generate all kinds of reports from this point on.

Its business as usual in the Finance Department for this time of year, audit work along with the daily work and we made it through the 10 years of January.
