Hello Jeanne,

Attached is New Hampshire's PT Compact compliance report for Q4 2024. Areas where New Hampshire met the 90% compliance threshold are highlighted in green, and areas where it did not meet the 90% compliance threshold are highlighted in red.

For Q4 2024, New Hampshire met the requirement disciplinary action reporting within 14 days. It did not meet the requirement of weekly data sharing nor use of the FSBPT ID, though I understand the former has been resolved and the latter is currently being addressed.

As a reminder, "Compact Privilege Holder in state licensure lookup website" (column J) is NOT a compliance requirement for being a compact state, however the PT Compact Executive Board strongly recommends adding this information to your licensure lookup website. We have been informed that some compact privilege holders are not being credentialed by insurance companies because they cannot be verified on a state's licensure look up. Something to consider as you update your system.

The PT Compact Compliance Committee will be meeting in the next few weeks. If there is anything you'd like to share with the committee, please provide your input by Wednesday, February 5 so that I can share it with them.

Thank you for your attention,

Jenny Lapnawan, PT, DPT  
PT Compact
