ACTION

Subject: Laptop Donation to North Point Veteran's Home

Date: January 21, 2025

BACKGROUND:

North Point Veteran's Home offers a transitional living program with recovery-oriented services aimed at supporting sobriety, employment, and independent living skills for homeless veterans. Their services include: residential housing and treatment for up to 24 months; helping veterans re-establish in the community; employment support; financial counseling, including money management education; assistance in securing VA benefits; support for mental illness and substance abuse; and training and assistance. Additionally, North Point provides meals, laundry services, and activities, with residents participating through chores and a monthly income-based program fee. This group has approached HCC requesting a donation of older laptops to help their clients taking online classes.

RECOMMENDATION:

That the Board of Trustees approve the donation for North Point Veterans Home of up to 20 laptop computers and potentially a few all-in-one units to support their program.
