

Acceptance of Pass or Satisfactory Grade Transfer Credits

A Pass or Satisfactory grade is awarded when students select the pass/fail or satisfactory/unsatisfactory option instead of receiving a typical letter grade.

Hagerstown Community College will accept transfer credits for those students who complete courses at another institution and receive a Pass or Satisfactory grade under the following conditions:

- If the sending institution or HCC designates the course as general education, the course and credits will transfer.
- If the sending institution or HCC designates the course as non-general education, elective, or a program of study requirement, the Pass or Satisfactory grade will transfer providing the block of courses being transferred has a minimum GPA of 2.0
- For HCC programs that have courses that require a grade of C for successful completion, the pass/fail or satisfactory/unsatisfactory policy of the sending institution must be evaluated by the ~~Office of Admissions, Records and Registration~~ Records Office or Registrar. If such policy allows students to earn a D grade, but still receive a Pass or Satisfactory, course(s) will not be accepted for transfer.
