

Discontinued Credit Programs

When a program of study is discontinued, students will be afforded time to complete the program requirements. ~~Academic~~ **Academic Division** Directors are responsible for approving a student's plan to complete ~~his/her~~ **their** coursework. This plan may include a combination of waivers and substitutions for program requirements, not to exceed 9 combined credits. Under no circumstances can an alternative completion plan result in students graduating with fewer than 60 credits. The length of time for services and benefits to be extended is determined by the number of credits the student needs to complete the program with a maximum of two years after the discontinuance of the program. Requests for further extension must be submitted in writing to the Vice President of Academic Affairs and Student Services.

This policy was also revised on April 17, 2012.
