

MEMORANDUM

TO: External Relations Committee

FROM: COL Kimberly Parker

SUBJECT: Higher Education Legislation

DATE: 16 January 2025

Attached is the spreadsheet for the legislation the Government Relations team is tracking during the 2025 General Assembly Session. Subject matter experts from across Post assess the impact upon the Institute's operations and suggest an appropriate course of action to the GR team.

Liaisons from all the public colleges work together to address amendments to legislation when necessary. This Session is a short one so bills are already moving rapidly through the deliberative process.

At the end of Session, we will compile a list of successful legislation and address compliance. All legislation is effective on 1 July 2025 unless it contains a delayed enactment clause.
