- Bachelor of Science in Artificial Intelligence and Data Science
- Bachelor of Science in Military Science

NEW DOCTORAL DEGREE PROGRAM

CIP: 130401

- New 60 credit hour Ed.D. in Community Based Leadership
- Four option areas: Civic Leadership, Indigenous Leadership, Professional Studies, Instructional and Curriculum Leadership
- Curriculum is presented below, the degree plan with admission requirements is attached separately.

Doctor of Education in Community-Based Leadership (Ed.D.)**GENERAL REQUIREMENTS FOR DOCTORAL DEGREE**

To earn a Doctor of Education in Community-Based Leadership, students must complete at least 60 graduate semester hour credits, including 12 dissertation hours. All coursework applied to the doctoral degree must be at the graduate level, and the degree requires at least 60 post-master's hours, including coursework and research hours. Students should plan to spend a minimum of three full academic years beyond their Master's degree. During this period, they must fulfill the requisite graduate coursework, pass a comprehensive examination, and effectively defend and submit their final dissertation.

PROGRAM OUTCOMES

Graduates of the Community-Based Leadership program will be expected to achieve the following learning outcomes:

1. Synthesize knowledge and develop a personal leadership philosophy that incorporates a commitment to collaborative action and interdependence.
2. Evaluate the effectiveness of collaborative group practices and identify areas for improvement.
3. Synthesize knowledge of policy, ethics, and legal issues to develop informed, well-reasoned recommendations for organizational improvements.
4. Develop a framework for community building and interagency collaboration that incorporates a global perspective, collective responsibility, and inclusive decision-making processes and is applicable to real-world scenarios.
5. Develop a personalized action plan to continually assess, reflect, and improve their leadership communication skills, ensuring ongoing growth and development.
6. Apply the principles of strategic team leadership in one's work context.
7. Develop advanced-level expertise in a specialized content area.
8. Produce a dissertation that meets academic and professional publishing standards, demonstrating an understanding of disseminating research findings to a wider audience.
