TO: Providers of the 15 hours of continuing education on the 2020 NEC

The 2020 National Electrical Code is being published and will be distributed throughout the country. The NH Electricians' Board is accepting inquiries from prospective continuing education providers for approval by the Electricians' Licensing Board to teach the 2020 NEC code changes.

The Electricians' Board Education Committee has standardized guidelines for all providers to follow in developing their course outline and operation.

1. Providers shall submit, in writing, an outline of the course with their application.
2. Providers shall submit, in writing, to the Electricians' Licensing Board all scheduled 15-hour code courses with the time, date, and address where course will be held. (It's a possibility a Board member representative could attend to monitor the course.)
3. Attendance shall to be taken three times during the scheduled day ... at the beginning of the day, after lunch break, and at the end of the day. Picture ID and Electrician's license are required for proof at registration and for proof of course completion before certificate is issued.
4. Classes must start and end at the scheduled time. Breaks and lunchtime are not considered part of the 15 hour class time.
5. One of the fifteen hours must include changes to RSA 319, the Administrative Rules, and to the list of 'Commonly Found Licensing Concerns and Installation Deficiencies' provided by the Electricians' Licensing Board.

RSA 319-C, Administrative Rules and the list of 'Commonly Found Licensing Concerns and Installation Deficiencies' can be found on the NH Electricians' Board web site.

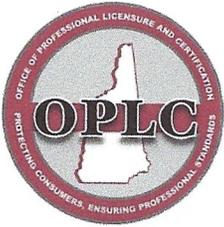

<https://www.oplc.nh.gov/electricians/forms.htm>

The Electricians' Board is going to continue the requirement for providers to submit the names of course attendees with New Hampshire licenses electronically. As in the 2014 cycle, we will not accept certificates as proof of continuing education for actual license renewal.

Once applications for new providers are approved the provider will receive a test packet and instructions for the electronic submittal. A provider number will be issued when the test submittal is received. Previously approved providers must acquire Board approval each code cycle.

The Electricians Board would like to thank all past continuing education providers for the service you have provided the electricians and citizens of our State. Your courses have kept New Hampshire on the cutting edge for highly trained electricians.

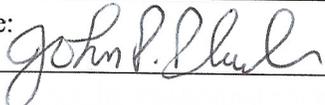

If you have any questions, please contact or write the Electricians' Licensing Board.

John Plourde\Owner Instructor

To: The NH Electrical Board.
Date: October 17, 2022.
Subject: The 2023 Code Update Approval.

I submitted 3 forms for the approval of the 2023 Code update that will start in January 2023

THE SELF PACE ON- LINE PROGRAM This program was approve thru the board in 2020 and is self -pace and can be started at any time during the 2023 year. I also have a power point on all the requirement of the state that the Mike Holt program does not cover. Question can be answered at any time after 6 PM.

THE LIVE VIRTUAL CLASSES This program was also approve for the 2020 code update. This program is on Wednesday nights from 6 PM to 9 PM for 5 weeks.

I limited this class to 20 students instead of 25 because it fits better on my big screen TV that I can watch the students and their reaction . I have a projector that projects the MIKE HOLT power points on a 4X8 white board with a camera viewing the white board. I step into the viewing of the white board to draw on the power point on the white board, and to answer questions.

That dates for this program in 2023 is the following all on Wednesday Nights

Class 1 Jan 4-11-18-25 FEB 1

Class 2 FEB 15-22-March 1 -8-15

Class 3 April 5-12-19-26 May 3

Class 4 May 10-17-24-31 June 7

Class 5 June 21-28 July 12-19-26

Class 6 August 9-16-23-30 and September 6

THE LIVE IN CLASSROOM CODE UPDATE This 15 hour code update is the same material as the live virtual program with MIKE HOLT and my power points. The classes are limited to 15 electricians because my classroom in my office can only handle 15 students. 2 -8 hour days on 2 Saturdays on the following dates.

Class 1 Jan 7-14

Class 2 Jan 28-Feb 4

Class 3 Feb 17-24

Class 4 March 18-25

Class 5 April 22-29

Class 6 May 13-20

Class 7 September 23-30

Class 8 November 11-18

THANK YOU

John Plourde

Resume of John Plourde in the Electrical Industry

This resume is for the electricians' board is for approval of an on-line 15 HOUR CODE UPDATE PROGRAM with the laws and rules of the state of NH.

The company is named PERFORMANCE ELECTRICAL TRAINING LLC.

I Started out in the electrical industry with LONGCHAMPS ELECTRIC Inc in 1983 thru 1989 during which I enrolled in the ABC program for NH apprenticeship. During this time at LONGCHAMPS ELECTRIC I worked in industrial, commercial, residential, and service work. After completing my apprenticeship program, I passed the journeyman test in 1988 and my masters in 1989. In 1989 I started PERFORMANCE ELECTRICAL COMPANY while still working for LONGCHAMPS ELECTRIC

In 1989 I left LONGCHAMPS to continue my own electrical company. I was performing electrical installation in residential, commercial and industrial application. In 2010, due to the economy, I temporarily closed my company and started to work at the State of NH DOT as an electrician.

In 2010 to 2011 I worked in Concord at the DOT building installing electrical in all state DOT garages.

In 2011, I was hired as the southern electrical inspector for the fire marshal's office for the state of NH. Later, the electrical board and inspectors were moved out of the Fire Marshal's office to the joint board as it is today. I performed electrical inspections, reports, investigations, and I educated electrical contractors on the codes. Also, during this time, I was an instructor at MST in Manchester for apprenticeship training. I left the inspection position at the state in 2014.

From 2014 to the present, I have been an electrical inspector for the city of Portsmouth NH. My duties include inspection on all types of construction for electrical installation, and inspecting for building codes, energy codes, fire codes, and plan review for large projects. During this time, I left MST as an instructor and started to instruct electrical apprenticeship training in Dover, and in Manchester for NH MECHANICAL TRADES SCHOOL for years 2-3-4.

From 2017 to the present, I have been performing electrical inspection, training and consulting under JP ELECTRICAL ENTERPRISES.

From 2019 to the present, I have been an instructor for Revision Energy in Brentwood NH for apprenticeship training.,

In 2020, due to the corona virus outbreak, I started to investigate how I could provide electrical apprenticeship training during these times. I came up with an idea to do live virtual electrical training for apprenticeship, code update, exam preparation, 30-hour continuing education for apprentices, and more.

The electrical industry is just not a job it is a passion that I have for the advancement of electrical knowledge thru apprentice programs, code updates, and free programs.

My mission in the next 5 years is to advertise and promote the electrical industry to the apprentice program to high school student and offer scholarships each year for student.

PERFORMANCE ELECTRICAL TRAINING LLC IS WORKING FOR THE NEXT GENERATION OF SKILLED ELECTRICIANS FOR OUR INDUSTRY.

John Plourde
