Purpose: The College released ITN (Invitation to Negotiate) #2020-070-JH on May 7th, 2020 to seek qualified vendors that could assist with bridging the digital divide for the Broward UP movement in the following categories: Telecommunications, Internet Communications, Computer Equipment and Devices and Professional Training Services.

T-Mobile USA, Inc (T-Mobile) was one of four vendors recommended for award via ITN-2020-070-JH for their commitment to the Broward UP movement and by also having the best Internet service coverage at all identified Broward UP zip codes.

Due to the pricing structure of T-Mobile, and the many terms and conditions within the telecommunications sector when it comes to contracting, the College negotiation team and T-Mobile determined it was best to use the NASPO ValuePoint Wireless, Data & Accessories contract MA176.
<https://www.naspovaluepoint.org/portfolio/wireless-voice-data-accessories-2019-2024/>

The NASPO ValuePoint Wireless, Data & Accessories piggyback contract, with an end date of 06/30/2024, would allow the College to purchase all services from T-Mobile at the lowest prices they would offer all their customers. In addition T-Mobile is committed to donating funding for Technology at the Broward UP partner centers and will be working with the Marketing group for all future opportunities when it comes to the Broward UP movement.

Return on Taxpayer or Student Investment: By releasing an ITN, the College worked hard at ensuring the best pricing was available for student success purchases. Although, the negotiation team made the final decision to piggyback off a national contract, T-Mobile is determined to provide better pricing for the Broward UP movement when possible. In addition, the College will now be able to participate in all promotions offered by T-Mobile. Having a strong telecommunications vendor like T-Mobile for the Broward UP movement and all other College needs, is a positive investment for the Institution.

How does this impact student success: All purchases via this contract will be directed towards student success. The College is seeking to invest in wireless Internet services for those students that do not have the proper coverage at their home today, or have service that is not adequate to complete their studies. Not only will the College be able to work with T-Mobile for all Broward UP needs, this contract can be used for any initiatives, or other business the College may have.

What specific goal of the Strategic Plan is advanced through this action: Start, Succeed.

MEMORANDUM

TO: Tony Casciotta, VP for Information Technology

FROM: Christian Block, IT Chief Business Officer

DATE: 04/02/2021

SUBJECT: Award Recommendation for ITN-2020-070-JH

After careful review, the evaluation committee and the negotiation team are recommending to contract with four vendors who participated in this ITN: Howard Industries, Inc. DBA Howard Technology Solutions, Tech Army, LLC, T-Mobile USA Inc, Troxell Communications, Inc. Each vendor represented a different portion in the technology space, so establishing multiple contracts is beneficial for the College. The proposals were based on several key components: Understanding of the College's Requirements, Relevant Experience, Unique Qualifications and Cost of Services Provided.

Broward College requested three types of proposals for this bid, one for Telecommunication Services, one for Computer Equipment and Services and finally, Professional Technology Contracted/Staffing Services.

Several factors were taken into consideration to come to this decision

1. Under the telecommunications portion of the ITN, T-Mobile was the only vendor in this space to bid and meet the requirements to be evaluated. However, they exceeded the expectations of the committee, by wanting to partner with the College in every area we can use them.
2. Under the Computer, AV hardware and services, Howard Technologies and Troxell Communications both offered very different catalogs. One specializing in refurbished equipment and the other in manufacturing their own products. Both also have the ability to resell product as needed and having two vendors assists with the College meeting deadlines when there are shortages with equipment.
3. Under the technology staffing portion of the ITN, the College wanted one vendor to support the Broward UP movement, so that a strong relationship could be built. Tech Army demonstrated that it had the capacity and the willingness to assist the College in bridging the digital divide when it comes to training and staffing services.

Taking all this information into consideration, the committee has decided that these four (4) vendors (Howard Industries, Inc. DBA Howard Technology Solutions, Tech Army, LLC, T-Mobile USA Inc, Troxell Communications, Inc) out of nine (9) were the best choice to assist the Broward UP movement and all the committees when it comes to their technology needs.

B. EVALUATION PROCESS

A request for proposals (RFP) was issued by the State to select vendors to provide Wireless Voice, Data and Accessories services. Pursuant to Utah Code § 63G-6a-702(2), the RFP process was used because criteria other than cost were considered important in determining which vendor’s proposal provides the best value to the State. This RFP was divided into 4 Award Categories with Award Category 3 divided into 13 subcategories (3A-3N). Vendors were welcome to submit proposals for all Award Categories.

Proposals were evaluated in accordance with Part 7 of the Utah Procurement Code by an Evaluation Committee composed of central procurement officers from the states of Oregon, Washington, Nevada, Alaska, Connecticut and Utah. A representative from the Division of State Purchasing was consulted throughout the process to ensure compliance with the Procurement Code but was not a voting member of the Evaluation Committee.

Following an evaluation of mandatory minimum requirements for each Award Category, 7 vendors advanced to the initial technical scoring stage for the database management. 7 vendors advanced to the technical scoring stage for the applicable Award Categories.

A threshold of 70% of the total available technical points was set for the minimum necessary score for contract consideration in all Award Categories. Vendors falling below this threshold would be ineligible to enter into a contract with the State. As such, vendors below this 70% threshold did not move onto the cost evaluation stage of the process.

***Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones**

1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the "Subsidy Term").

2) Each line of Service must remain active, without suspension, for a 90-day period following the activation ("Minimum Activation Period").

3) Each line of Service must be activated in accordance with the terms of the agreement.

4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the initial Term.

5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and

6) Customer's account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination. If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro-rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e., 50% (12 CA months) / \$150) for such terminated line). Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected line of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated line of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated line within 30 days of issuance of notice by T-Mobile.

***EmpowerED Program Plans are available to elementary, middle and high schools, and districts across the U.S. Schools or districts. The eligibility criteria and EmpowerED Program offers are posted here: https://www.t-mobile.com/business/activation/empowered.**

Each line of Service must be activated and maintained for at least the Term without any suspension or termination of any line of Service that received the Device Discount/Subsidy (the "Device Discount/Subsidy Term").

- Customer agrees that it cannot change or move the lines of Service with a Device Discount/Subsidy to a rate plan with a different or lower Rate Plan during the Device Discount/Subsidy Term and if it does, Customer will reimburse T-Mobile for a pro rata portion of the Device Discount/Subsidy received for each month remaining in the Device Discount/Subsidy Term.

Network Management: Program/Service may be slowed, suspended, terminated, or restricted for interference with our network or ability to provide quality service to other users or abusive/excessive use. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. See T-Mobile.com/Openinternet for details. See Terms and Conditions at www.t-mobile.com for additional information.**

****Connecting Hero plans are restricted to qualifying state government, local government and tribal government fire, police, and EMS agencies who verify eligibility. Line limits are based on number of personnel performing first responder functions as described herein ("Qualifying Headcount"). In way of example only, Qualifying Headcount will include, but will not be limited to, firefighters; EMS, police officers, and dispatchers; but will not include, by way of example only, maintenance staff and office staff. In its sole discretion, T-Mobile will review the Customer's Line Limit based on Customer's Qualifying Headcount. T-Mobile may require documentation from Customer relating to its Qualifying Headcount. T-Mobile may also re-verify Customer's Qualifying Headcount on a regular basis during the Term of the Addendum. Changes in Customer's Qualifying Headcount may affect Customer's total Line Limit.**

General Rate Plan Terms and Conditions: On all T-Mobile plans, for the small fraction of customers using <50GB/mo., primary data usage must be on smartphone or tablet. Not all features available on all services. Unlimited talk & text features for direct communications between 2 people. Not for extended international use; you must reside in the U.S. and primary usage must occur on our network. Device must register on our network before international use.

Tethering: Tethering at max 3G. Service may be terminated or restricted for excessive roaming.

Simple Global: Usage may be based in some countries. Calls from Simple Global countries over Wi-Fi are \$20/mo. (no charge for Wi-Fi calls to US, Mexico and Canada). Standard speeds approx. 128Kbps without Plus; with Plus approx. 256 Kbps. See <http://www.t-mobile.com/optional-services/roaming.html> for included countries and destinations. The list is subject to change at T-Mobile's discretion.

Certain uses, e.g., some speed test apps, may not count against high-speed data allotment or have speeds reduced after allotment reached. U.S. roaming and on-network data allowances differ; see your selected service for details.

Data Share: Up to 20 GB of on-network data from past 12 months carries over to next billing cycle for as long as you maintain qualifying service. Coverage not available in some areas; we are not responsible for our partners' networks.

Network Management: Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. See T-Mobile.com/Openinternet for data management details.
