

IOWA CENTRAL COMMUNITY COLLEGE
BOARD APPROVAL OF ACE PROGRAMMING

Associate Degree Nursing Program

For Board Approval

Iowa Central Community College plans to apply for \$60,000 through the job credits component. The dollars will be used to assist in the support and expansion of the Iowa Central Community College Associate Degree Nursing Program. The Program meets the criteria of ACE legislation: a credit career, vocational, or technical education program. Ten students will be sponsored through the agreement with Stewart Memorial Hospital.

The Associate Degree Nursing program (ADN) will prepare students for this exciting career with concentrated classroom studies and extensive clinical work (720 hours) based on a wide range of health care settings. The ADN program is committed to providing quality nursing education to aid students in meeting their diverse learning needs in preparing for a career as a Registered Nurse. The program has expanded to include the new Storm Lake facility, equipped with training simulators.
