Good afternoon, Alexander,

First of all, thank you so much for reaching out. Yes, we have a question regarding re-licensure requirements for our providers at MaineHealth who hold a license in New Hampshire. These providers do remote telehealth work and have asynchronous only encounters with patients. We are wondering whether or not 100% asynchronous work will meet the New Hampshire state boards' requirements; if not, what is the threshold for synchronous work that needs to be done for re-licensure to be successful? Please let me know if you need me to provide more detail.

Thank you so much,

Natalia
