## From the Office of the CEO

State medical boards play a crucial role in FSMB's policy-making process by identifying issues of importance to medical regulation and submitting resolutions to FSMB's House of Delegates for consideration. As the New Year gets underway, I encourage you to consider what issues have impacted your board recently and whether a particular policy could address those issues.

Issues identified by FSMB member boards in recent years have led to the development of new policies and programs that have helped enhance public protection across the country. I hope you'll give this opportunity some consideration and also ask others at your board what new policies could be beneficial to the entire medical regulatory community.

The House of Delegates will meet in April, in conjunction with the FSMB's Annual Meeting in Seattle. Resolutions should be submitted by February 21, 2025. Please [click here](#) to learn more about FSMB's policy-making process.

## Register now for 2025 FSMB Annual Meeting in Seattle, April 24-26

Registration is open for the 2025 FSMB Annual Meeting, which will be held April 24-26 in Seattle. You are invited to join hundreds of your colleagues from state medical boards to learn about the latest trends and best practices in medical regulation and board operations.
