

Hi,

I am interested in knowing if the state board of nursing would consider running a somatic movement / freestyle dance class under the umbrella of complementary / alternative nursing? I am a nurse coach and somatic movement is considered part of nursing under the American Holistic Nurses Association.

I have professional liability insurance as a nurse coach, and they state that if the state considers it part of nursing then they cover the somatic movement events.

Thanks for any clarification you are able to give,

Jill Jefferson, RN, BSN, HWNC-BC
