

**Monthly GIS Department Report**  
**January 9, 2025**

- Processed parcel split and combination requests for November.
- Maintained and updated GIS layers, including land use, zoning, and other relevant datasets.
- Updated and uploaded NG911 and 911 GIS layers to public safety mapping systems.
- Responded to map scanning and printing requests.
- Provided census data for the Sublette Fire District.
- Completed and submitted damage assessment surveys and dashboards to EMA for review and approval to ensure accuracy and compliance before public release.
- Developing an operations dashboard to track the real-time progress of field data collectors and monitor completed tasks related to photo inspections within the office.

Respectfully Submitted,  
Sami Elarifi  
GIS Coordinator
