

Regional Office of Education Report

February 2025

VISION 2030

Last month, education leaders from five statewide organizations in Illinois unveiled the Vision 2030 blueprint for excellence in K-12 public education—a policy brief shaped by the voices of over 1,000 stakeholders, including locally elected school board members and dedicated educators statewide—from the southern tip to northern Illinois.

Vision 2030 is rooted in the belief that students thrive and educators excel when they feel safe and connected to each other and to their communities. This guiding principle is critical for fostering academic achievement and individual well-being, and it must be integrated into our instructional approaches, support systems, and funding, so that local districts have the resources needed to ensure that school buildings are safe.

Specifically, Vision 2030 prioritizes:

- **Future-Focused Learning:** Redefining student success to prepare our children for a rapidly changing world.
- **Shared Accountability:** Moving beyond standardized tests to evaluate student growth and proficiency over time.
- **Predictable Funding:** Ensuring sustainable financial resources for excellent education and updated technology to meet today's economic challenges.

Most importantly, Vision 2030 is focused on preserving local flexibility, so that we can make the best decisions for our students right here in our community.

Office of Professional Learning & Ed Services: Professional Learning & School Improvement

- ROE 47 Office of Professional Learning & Ed Services is currently **auditing 10 school districts** in Lee, Ogle & Whiteside counties. Regional Offices of Education are required to audit the professional development activities offered by districts at least once every five years.
- ROE 47 is partnering with the Illinois and National Science Teacher Association and the Illinois State Board of Education to provide **statewide professional learning to support the implementation of the Illinois Science Standards** in FY 25. Sessions (virtual, face to face, synchronous, asynchronous) launched January 27, 2025 with over 40 participants and will continue through June 30, 2025.
- ROE 47 Office of PL & Ed Services has been awarded a NEW grant from the Illinois Department of Public Health to promote **youth mental health and suicide prevention**. The Youth Aware of Mental Health (YAM) program is a school-based program that teaches students (grades 8-12) how to cope with mental health issues and prevent suicide. The program is delivered by certified facilitators in the classroom in a series of interactive sessions(role play, student discussions) over a few weeks. What the program does:
 - Helps students learn about mental health and suicide prevention
 - Teaches students how to identify and respond to mental health concerns
 - Helps students develop coping skills and emotional resilience
 - Encourages students to seek help for themselves and their friends
 - Helps students recognize the need for support
- Active schools with **TRS-IA or RSSI plans** to support trauma-responsive schools include: Amboy Central Elementary, Amboy Jr High School, Amboy High School, Center for Change, Chana Educ Center, Southside School (Morrison), Polo High School, Rock Falls Middle School, Dillon Elementary (RF), Merrill Elementary (RF), Riverdale (RF),

Jefferson (Sterling), Lincoln Elementary (Sterling), Paw Paw Elementary & Jr High, Monroe Center, Sauk Valley Deanery.

- ROE 47 has launched a year-long **social media campaign to raise awareness of trauma**, reduce stigma, and promote resilience. Posts are available each Monday on Facebook.
- ROE 47 partners with Sterling Township's Elevate Youth Program and the Sterling-Rock Falls YMCA to provide an **afterschool program** for Challand Middle School students at the youth center. The program runs Monday - Thursday from 3:00 - 5:30 p.m. We are serving 15 students each night. In the recent weeks students have really enjoyed using tinkercad and printing on the 3d printer. In the last week we have gained 2 new kids because their friends are excited about coming. Looking forward to planning summer activities with the group and working on study and homework skills.
- The Office Professional Learning & Educational Services is excited to announce that we have been awarded a **Preschool for ALL Expansion grant** through the Illinois State Board of Education. The grant proposed partnering with Dixon YMCA and Dreaming Tree preschool in Dixon to open four full day preschool classrooms serving 80 children ages 3-4.

FREE Program!

Our Locations

ROE 47 is proud to partner with Open Sesame Daycare and YMCA Lovett Child Development Center to provide a comprehensive early childhood education program that prepares children for kindergarten and beyond. Our program offers four classrooms (2 per site) serving 80 students, four certified teachers, family support, a lending library, family events, and an evidence-based curriculum. Together, we're committed to providing your child with a strong foundation for lifelong learning.

Our Mission

The ROE 47 Early Learning Academy partners with families and the community to nurture young minds and foster a love of learning through high-quality early childhood education, empowering children to become confident, curious, and capable learners.

Our Philosophy

The ROE 47 Early Learning Academy believes that all children deserve a strong foundation in early learning within a safe and nurturing environment. Educators work closely with families to support holistic development, respecting each child's unique needs and cultural background. Emphasis is placed on inclusive practices, honoring diversity, and preparing children to thrive academically and socially.

ROE 47 EARLY LEARNING ACADEMY

Empowering children to become confident, curious, and capable learners.

2024-2025

A Play-Based Approach to Learning

Our curriculum is designed to engage young minds and spark curiosity. We believe in the power of play to support children's learning and development. Our program emphasizes:

- Child-Centered Learning: Tailoring instruction to meet individual needs.
- Literacy and Math: Building essential skills through hands-on activities.
- Science and Social Studies: Exploring the world around us.
- Creative Expression: Encouraging imagination and self-expression.

Program Hours

Monday - Friday
August - May
Program Follows Dixon Schools calendar
8:30 a.m. - 3:00 p.m.

Wrap Around Care Available!

Breakfast, lunch & snack provided.

Who is Eligible?

- ✓ Be 3 or 4 years old by September 1st of the current school year.
- ✓ Meet state eligibility guidelines.
- ✓ Participate in a developmental screening

Our Program

ROE 47 Preschool for All is a program designed to provide high-quality, **free, full day** preschool education to eligible children in Lee, Ogle & Whiteside counties. Our program focuses on:

- Early Learning: Building a strong foundation for future academic success.
- Social-Emotional Development: Fostering positive relationships and self-regulation.
- Cognitive Skills: Encouraging critical thinking and problem-solving abilities

5 Days of Full-Day Preschool!

Office of Professional Learning & Ed Services: Parent Engagement & Community Outreach

- Parent & Family Engagement Events
 - December 1: Cardinal Community Christmas, Stillman Valley - 50 families
 - December 6: Sights & Sounds, Sterling - 500 people
 - December 31: Noon Year's Eve, Sterling - 18 students
 - January 9: Parent University: Money Matters - 13 families
 - January 13: BLOCK Fest for Preschool Students, Erie - 35 families
- To date, ROE 47 has 144 partners on its IRIS referral platform. There have been 3,150 referrals and 1726 families served. IRIS is an Integrated Referral and Intake System that works to connect local agencies with one another to streamline online client referrals. IRIS supports warm hand-offs for families, closes the communication loop for referring organizations, tracks outcomes, and provides a clear data-driven picture of partner capacity to improve the process over time.

Office of Professional Learning & Ed Services: Social Media

The department's social media presence continues to grow. Like our page on Facebook (Regional Office of Education #47) and download our ROE47 App for weekly teacher talks, instructional tips, news, giveaways, updates & more! Follow us on Twitter @RegionalOffice47. Want to hear from educators & students in the classroom? Check out our Teacher Talks on YouTube! We have an extensive library of 153 videos (and growing) in our collection!

Upcoming Events

For Educators

NGSS CAPACITY BUILDERS SERIES

Welcome to this Zoom-based learning series for administrators, coaches, ROE staff, higher ed, curriculum directors, and science leaders. We'll explore key aspects of science education, including program analysis, effective instruction, integrating key skills, and enhancing science through technology and CTE. Join us to gain valuable insights and collaborate.

THE CURRENT REALITY OF SCIENCE

JANUARY 27
9:00 - 10:00 A.M.

This session will explore the role of science education in preparing students for success in the 21st century. We will demonstrate how science provides a crucial framework for understanding the world, fosters critical thinking, engages students, and connects to all areas of learning. We'll discuss ways to grow your school or district's science program (and ourselves)—starting small and moving to big. This session will inspire administrators to become champions for science in their schools and provide strategies for enhancing science instruction.

INTEGRATING MATH & LITERACY IN SCIENCE

APRIL 28
9:00 - 10:00 A.M.

This session will explore strategies for seamlessly integrating math and literacy skills (including equity) into science instruction. Participants will examine real-world examples of how to make time for these essential connections within the science curriculum.

EVALUATING THE SCIENCE CLASSROOM

FEBRUARY 24
9:00 - 10:00 A.M.

This workshop will explore how to effectively assess and improve implementation of the Next Generation Science Standards (NGSS). We will delve into defining effective science instruction, including phenomena-driven 3-dimensional learning, and culturally responsive teaching. We will then discuss strategies for bridging the gap between current instructional practices and the realities of what the NGSS demands, supporting teachers and administrators in this transition. By the end of this session, participants will be able to identify key characteristics of an effective science classroom and develop strategies for improving teacher feedback to accurately reflect the quality of science instruction.

SCIENCE SUMMIT

JUNE 23
9:30 A.M. - 12:00 P.M.

This online summit will feature keynote presentations from leading experts, interactive breakout sessions, and valuable networking opportunities. Attendees will explore key topics such as leveraging technology in the classroom, effective budgeting strategies, best practices in Career and Technical Education (CTE), and identifying and utilizing high-quality educational resources. Don't miss this opportunity to gain valuable knowledge and insights from industry leaders, connect with other educators, and discover innovative strategies to improve teaching and learning.

To register visit: www.roe47.org

NGSS PROFESSIONAL LEARNING

INTRODUCTION TO OPENSIED

January 28, 2025
4:30 - 6:00 p.m.
Virtual

This 90-minute session introduces Illinois K-12 educators to OpenSciEd, a free, NGSS-aligned science curriculum. Explore its inquiry-based approach, access online resources, and learn how to implement OpenSciEd in your classroom.

ADVANTAGES:

- ✓ Free and Openly Licensed
- ✓ NGSS-Aligned
- ✓ Inquiry-Based Learning
- ✓ 3-Dimensional Instruction
- ✓ Student Agency
- ✓ Comprehensive Resources

To Register:
www.roe47.org

February 4, 11, 18 & 25 | 4:30 - 6:00 p.m. | Zoom

Learning Series

WHAT IS SENSEMAKING?

This session explores the core concept of sensemaking in science education as defined by NSTA. Through four 90-minute Zoom sessions, participants will delve into the four critical attributes of effective sensemaking: engaging phenomena, science and engineering practices, student ideas, and disciplinary core ideas. This learning experience will equip educators with the knowledge and strategies to effectively enact these attributes in their classrooms, promoting equity and providing all students with opportunities to develop as scientific thinkers.

Register at www.roe47.org

ASSESSMENT WEB SEMINAR SERIES: DESIGNING EQUITABLE, 3D, CURRICULUM-ANCHORED ASSESSMENTS

Join us for a series of four workshops on Wednesdays, April 9, April 16, April 23, and April 30, 2025 from 6:00 PM to 7:30 PM, to redesign a three-dimensional classroom assessment connected to your instructional materials.

Using the NCSS Task Design Workbook and examples from a curated list, you'll learn key elements of high-quality 3D assessment design, including sensemaking, problematizing phenomena, and accessibility features.

The goal is to adapt an existing assessment for science classrooms while addressing questions about engaging students in 3D sensemaking and ensuring tasks are meaningful and accessible for all learners.

APRIL 9, APRIL 16,
APRIL 23, APRIL 30
6:00 - 7:30 P.M. CST
VIRTUAL

REGISTER TODAY!

THIS LEARNING SERIES IS PROVIDED AT NO ADDITIONAL COST THROUGH FUNDS FROM THE ILLINOIS STATE BOARD OF EDUCATION.

OpenSciEd Curriculum Launch Middle & High School

OpenSciEd High School Biology Launch

This 4-week series (8 x 3-hour web seminars) introduces high school teachers to the OpenSciEd Biology curriculum. Through video observations, peer learning, and hands-on experiences, participants will gain a deep understanding of the curriculum and its alignment with NCSS and the Framework for K-12 Science Education. They will also develop skills in 3D instruction and assessment, and learn to provide effective feedback to support student learning.

OpenSciEd High School Chemistry Launch

This 4-week series (8 x 3-hour web seminars) introduces high school teachers to the OpenSciEd Chemistry curriculum. Through video observations, peer learning, and hands-on experiences, participants will gain a deep understanding of the curriculum and its alignment with NCSS and the Framework for K-12 Science Education. They will also develop skills in 3D instruction and assessment, and learn to provide effective feedback to support student learning.

OpenSciEd Middle School Launch

This 4-week series (8 x 3-hour web seminars) introduces middle school teachers to the OpenSciEd 7th grade climate science unit. Through video observations, peer learning, and hands-on experiences, participants will gain a deep understanding of the curriculum and its alignment with NCSS and the Framework for K-12 Science Education. They will also develop skills in 3D instruction and assessment, and learn to provide effective feedback to support student learning.

Session Details

Tuesdays & Thursdays
5:00 - 8:00 p.m. CT

The Anxious Generation
How the Great Rewiring of Childhood is Creating an Epidemic of Mental Illness
Jonathan Haidt

Childhood was rewired between 2010-2015.

Our kids are capable of doing more.

Social media harms girls more than boys.

Reengage boys in REAL LIFE!

Ban phones in schools.

Play-based childhood - not phone-based.

BOOK STUDY DETAILS

10 Weeks
Starts: January 13, 2025
Ends: March 21, 2025

Zoom Meetings
Tues., January 21, 3:30-4:30 PM
Wed., February 19, 3:30-4:30 PM
Wed., March 19, 3:30-4:30 PM

SCAN ME

"Experience, not information, is the key to emotional development."

Join us for a thought-provoking book study of Jonathan Haidt's *The Anxious Generation*. This groundbreaking work explores the factors contributing to the epidemic of teen anxiety and depression, providing insights into the profound impact of technology on childhood development.

In this book study, we will:

- Delve into the research:** Understand the science behind the decline in youth mental health.
- Explore the causes:** Discuss the role of social media, smartphones, and other factors.
- Discover solutions:** Learn practical strategies to promote well-being and resilience in students.
- Engage in discussion:** Share insights, experiences, and ideas with fellow educators.

Whether you're a teacher, counselor, or simply concerned about the future of our youth, this book study offers a valuable opportunity to learn, connect, and make a difference.

ROE 47 Computer Science Teacher Leader Program

Session One
The training emphasizes building a strong foundation in computer science education, covering topics like computational thinking, algorithms, programming, and integrating CS into different content areas. Participants will explore resources for teaching CS concepts and collaborative practices like pair programming and debugging.

Session Two
The training delves deeper into integrating computer science (CS) across the curriculum. Participants will explore connections between CS and various content areas for both K-5 and 6-12 grade levels. Practical application will be emphasized through hands-on experience with microbots for grades 6-12. The K-5 session will feature participants designing cross-curricular lessons incorporating unplugged, plugged, and robotic activities for K-5 students.

Session Three
The training deepens CS integration, focusing on physical computing, project-based learning, and AI connections for middle and high schoolers. Elementary teachers will explore microbot basics and designed cross-curricular lessons.

Session Four
This final year 1 session will focus on reflecting on the learning journey and developing actionable plans for integrating computer science into classrooms. Participants will share their experiences, challenges, and successes. We will collaboratively develop strategies for overcoming obstacles and sustaining CS initiatives. Participants will leave equipped with a personalized action plan to implement in their classrooms.

Session Dates

Session One: MS/HS: September 26
K-5: September 27

Session Two: MS/HS: January 30
K-5: January 31

Session Three: MS/HS: March 13
K-5: March 14

Session Four: MS/HS: June 16
K-5: June 17

Benefits of Participation

- ISTE membership access
- Comprehensive LTC training aligned with new IL CS standards
- Comprehensive 2-year program
- Scholarships for technology conferences
- Access to ROE 47 technology lending library
- Ready-to-use classroom resources and lesson plans
- Networking opportunities with fellow educators
- Professional learning hours
- Support for building an IT pathway endorsement program
- Access to student engagement events (e.g., hackathons)
- And more!

To register, visit www.roe47.org
Space is limited in K-5 and 6-12 programs.

7th Annual Social Emotional Learning Summit

Tug of War The Power of Pulling Together

Tom Toney
Keynote Speaker

Are you feeling pulled in a million directions? Overwhelmed by the demands of education? As educators, we often find ourselves in a constant battle, striving to create the best possible learning environments for our students. But the pressures can be immense, leaving us feeling exhausted and defeated.

It's time to change the game.

In this summit, we will explore the concept of Tug of War and how it relates to our daily experiences as educators. We'll delve into the energy-sapping habits that can hinder our progress and discover strategies to overcome these challenges.

Understanding the Tug-of-War Mentality: Recognize the common patterns that can lead to feelings of exhaustion and frustration.

Building Positive Relationships: Learn how to foster collaboration and cooperation with colleagues, students, and parents.

Cultivating Resilience: Develop strategies to cope with stress and maintain a positive outlook.

Embracing the Power of Teamwork: Discover how to harness the collective strength of your team to achieve common goals.

Literacies of the Digital World: Teaching Technology Skills for Success in the 21st Century

This workshop aims to educate participants on the significance of computer literacy, digital literacy, and digital citizenship for student success in school and life. Attendees will learn to differentiate between these concepts, identify essential skills for each, and understand the appropriate timing for student exposure. Ultimately, participants will create an actionable plan for implementation in their school or district.

For Students

TEAM-BASED CHALLENGE DAY

Work with local industry partners in Manufacturing, Health Science, and Education to solve problems that people encounter in everyday professional practice.

Thursday, March 6th

8:30-2:30 at Sauk Valley Community College

REGISTRATION WILL BE
AVAILABLE SOON!

The Pathway Team at ROE 47 has developed a team-based challenge day for your health science, education, and manufacturing students. Tenth-grade to twelfth-grade students who are working on earning an endorsement in these areas are welcome to attend. Lunch will be provided.

This event will allow students to complete one of their required team-based challenges. Pre-work may be required.

REGIONAL OFFICE OF EDUCATION 47 AND SAUK VALLEY COMMUNITY COLLEGE

HEALTH SCIENCE SYMPOSIUM

APRIL 4TH, 2025

TIME
9:00 - 2:00

Join our area schools as we celebrate the hard work our health science pathway students have accomplished and use this opportunity to inspire other students to enter the health science field. Our goal is to have the students leave with a passion for health science and an excitement that will help them in their future.

Be Bold

Student Leadership Summit
Step Up.
Stand Out.

Tom Toney
Keynote Speaker

Are you ready to break free from the ordinary and make a difference?

Join us for the Student Leadership Summit and discover the power of boldness.

Don't let your dreams stay just dreams.
Join us and ignite your leadership spark.

Step outside your comfort zone: Embrace change and unlock your full potential.

Discover your unique strengths: Identify your talents and use them to make a positive impact.

Develop essential leadership skills: Learn the habits and attitudes that drive successful leaders.

Set Clear Goals & Achieve Them: Create a roadmap to success and overcome obstacles along the way.

Thursday, March 20, 2025

9:00 AM - 1:00 PM

McCormick Event Center,
Rock Falls

Parents as Teachers First Years

December brought a joint holiday party with the Education Outreach program. The EOP students helped us plan and prepare the activities and volunteered to dress up as a special guest for the day. The children and families all had a great time! January has had a lot of sickness - both for staff and families! We have also continued to enroll several new families.

Education Outreach Program

December is always a slow month for the Education Outreach Program as we hit our half-way mark for the school year. We give our students and staff a two week Holiday Break to spend time with family and friends. The students take full advantage of the break and often find it hard to return. We change focus in the winter months to gear towards Barrier Reduction.

The Education Outreach Program is fortunate enough to have BEST, Inc. funding to help with Barrier Reduction! We have been working with many of our students to help with anything from making car insurance payments to purchasing clothing to wear to an interview to fixing a student's headlights on their car.

In January, students are returning to class. The Education Outreach Program held mock interviews and virtual job shadows for this month's group event. The students were able to fill out applications and interview for a job all while getting critiqued to help them prepare for the workforce. They were also able to choose from a variety of jobs to shadow via virtual reality goggles. Through this program with BEST, Inc. they could participate in anything from handing over medical tools to a surgeon during a knee surgery to climbing a broadband tower for maintenance.

McKinney Vento Homeless Program

December is a month of joy for many; however, our McKinney Vento families may not be feeling the same. It adds additional stress to “celebrate” the holidays when the finances are very limited. We worked to connect our families with the community resources to help them celebrate to the fullest. It also puts additional stress on the budget because children are not getting breakfast and lunch at school. Food costs continue to rise and SNAP benefits do not keep pace. Our State grant dollars are limited as to the focus we are able to address, but all is being done to support our families and help to provide the best possible educational success for our students.

Center For Change

December

As we close out the year and move into the winter months, we are excited to reflect on the progress we've made and share our plans for continued growth and engagement into the second semester.

This semester has been one of growth, connection, and success. Our October outing to Selmi's Pumpkin Patch was a wonderful experience for our students, providing them with an opportunity to connect with the community while enjoying hands-on, seasonal activities. The event was well-received by students and staff, reinforcing the importance of providing opportunities outside the classroom that promote social and emotional learning.

As we prepare for the second semester, we are introducing *monthly themes* centered on student growth and performance. These themes will focus on essential values such as:

- **Rewards for Attendance:** Encouraging consistent participation and recognizing students for their commitment to learning.
- **Showing Respect:** Reinforcing positive interactions and respect towards peers, staff, and the community.
- **Acts of Kindness:** Promoting compassion and teamwork within our school and beyond.

These monthly themes will help us build a stronger culture of achievement and positivity while recognizing and celebrating individual student successes.

Thank you for your continued support of the Center for Change. Together, we are fostering an environment where students can thrive both academically and personally.

January February

As we return to school for the second semester, we are excited to continue building on the success of the first half of the year. The transition back has been smooth, and we are focused on maintaining a positive and supportive environment for both students and staff.

This semester, we are actively working towards growth by integrating trauma-informed practices into our program. Recognizing the impact of trauma on learning and behavior, we are beginning to explore strategies that provide a more supportive and understanding approach to student needs. This shift will not only benefit our students but also offer our staff additional tools to foster resilience and positive engagement within the classroom.

A major accomplishment this month is that all staff members have become CPR (Cardiopulmonary Resuscitation) certified. This training aligns with our goal of becoming a Heart Safe School, ensuring that our team is prepared to respond effectively to medical emergencies. This certification is a critical step in enhancing the overall safety and well-being of our school community, giving staff the confidence to handle emergency situations should they arise.

Additionally, we have begun ACT preparation for our high school students. With collaboration from home districts, we have identified appropriate placements where students will take the

ACT. Our focus is to provide the necessary resources and preparation to help them succeed in this important milestone.

As we progress through the second semester, we remain committed to continuous improvement and student success. The dedication of our staff, the support of our community, and our ongoing initiatives position us for a strong and impactful second half of the school year. We look forward to the growth and progress ahead!
