Re: South Walton Expansion Update

Construction on the South Walton expansion continues. Currently, the College's building has two stories constructed with progress ongoing. The Seacoast Collegiate High School building is likewise under construction. Expansion parking is complete and open. The Accelerator remains on hold pending additional funding for the project. The College and Seacoast are having ongoing discussions about how to structure the Accelerator portion of the project to fit needs, available space, and funding potential. Operationally, the College is actively planning its class schedule and staffing for new campus operations at the South Walton Center in Fall 2025. Seacoast submitted its Triumph Application for Seacoast funding on November 8, 2024, seeking \$9,559,941 to produce 5,393 milestones and secondary certifications as shown below.
