

Areas of further discussion/addendum/addition to handbook(s):

1. Course requirements: do we want it listed that students have 8 class periods per day, and how many credits are required per grade level?

2. Lunch: there is nothing stating our open campus lunch policy. Definitely need to define...DLT and administration currently in discussion on this item.

3. Class standing: nothing about # of credits per grade level. It is worth discussion.

JH using standard based grading-eligibility criteria per this transition? Currently we list 2 Ds and 1 F as our standard, what is the grading/eligibility standard in standard based grading?

Plagiarism addendum/update in future-Section that discusses the use of AI-this will take some conferring with legal counsel and/or MTSBA.

Athletic handbooks:

Add a page of the training rules to the athletic handbook. This page should include the curfew policy that isn't found anywhere else. Having them included in what a parent could find online makes it easier for us to show we have a policy that we follow.

Maybe remove the sports banquet dates from the athletic handbook. Writing this in stone is unnecessary and doesn't allow for coaches to have their own banquet if they so choose.

Copy of the community service paperwork should be included. It states that athletes must perform community service hours but no form included.
